1. New user will be registered here.

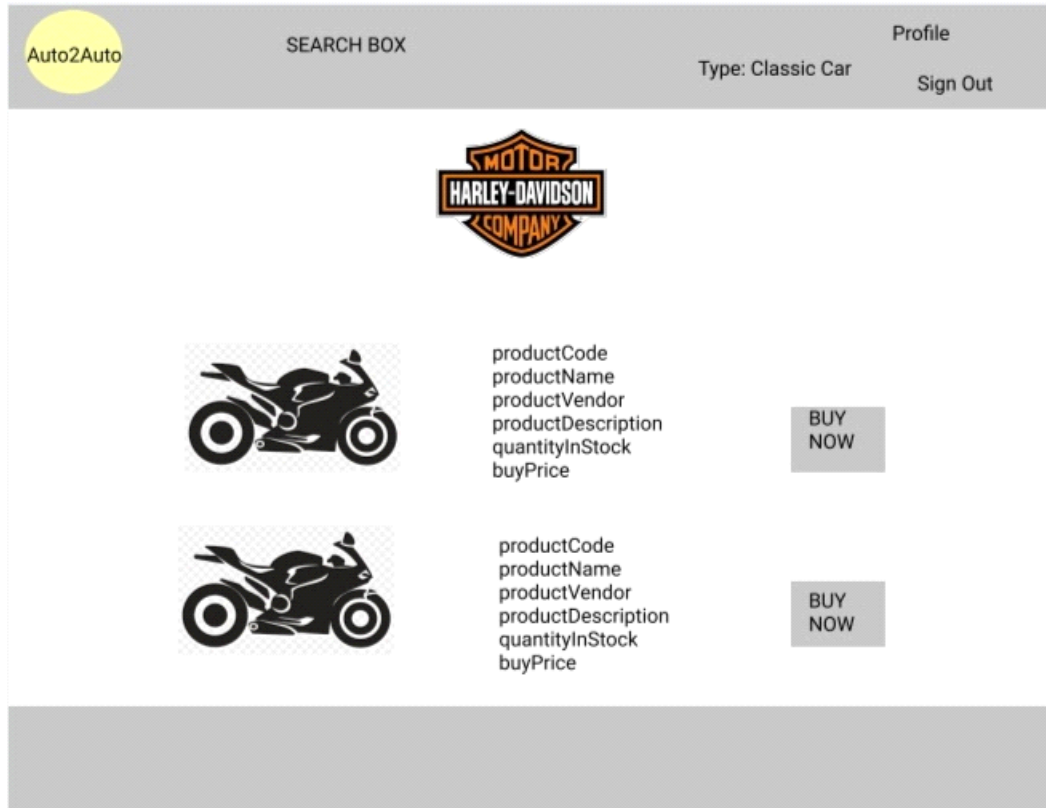

5. Login Page

The image shows a login page layout. At the top, there is a grey header bar. On the left side of the header is a yellow circular logo with the text "Auto2Auto". On the right side of the header is the text "Login Page". Below the header, the main content area is white. In the center of this area, there are two input fields. The first is labeled "Name" and the second is labeled "Mobile No". Below these two fields is a grey button with the text "Login". At the bottom of the page, there is a wide grey footer bar.

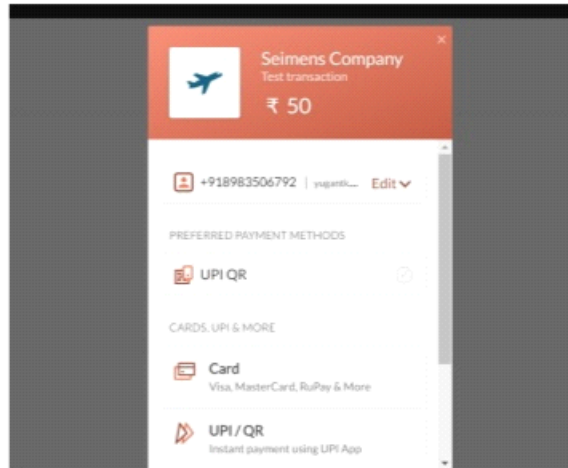

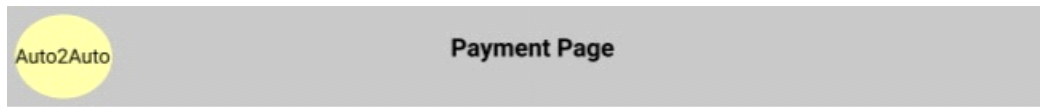

1. User Login through this portal
2. User will be distinguished as Admin, Retailer or Manufacturer

6. Home Page Retailer

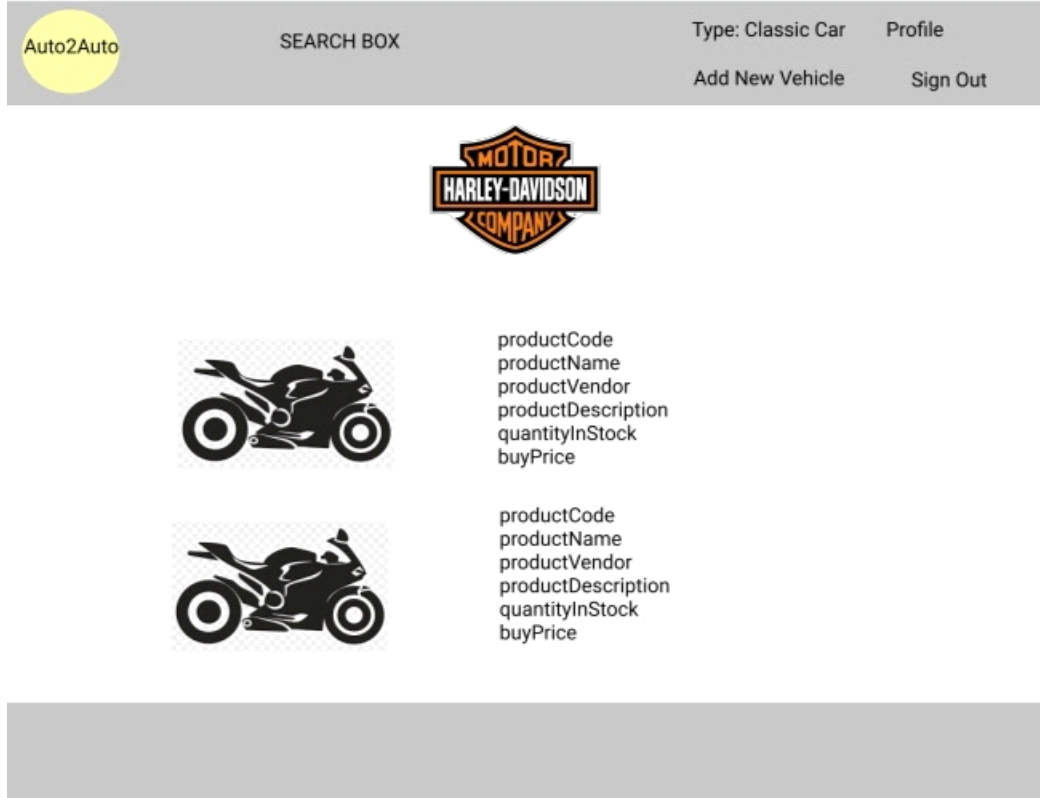

1. If logged in as Retailer, user will be redirected here
2. Retailer Home page will be displayed according to User registered brand name accordingly.
3. User can order Vehicle by Click on Buy now and will be redirected on Payment page.

7. Payment Page

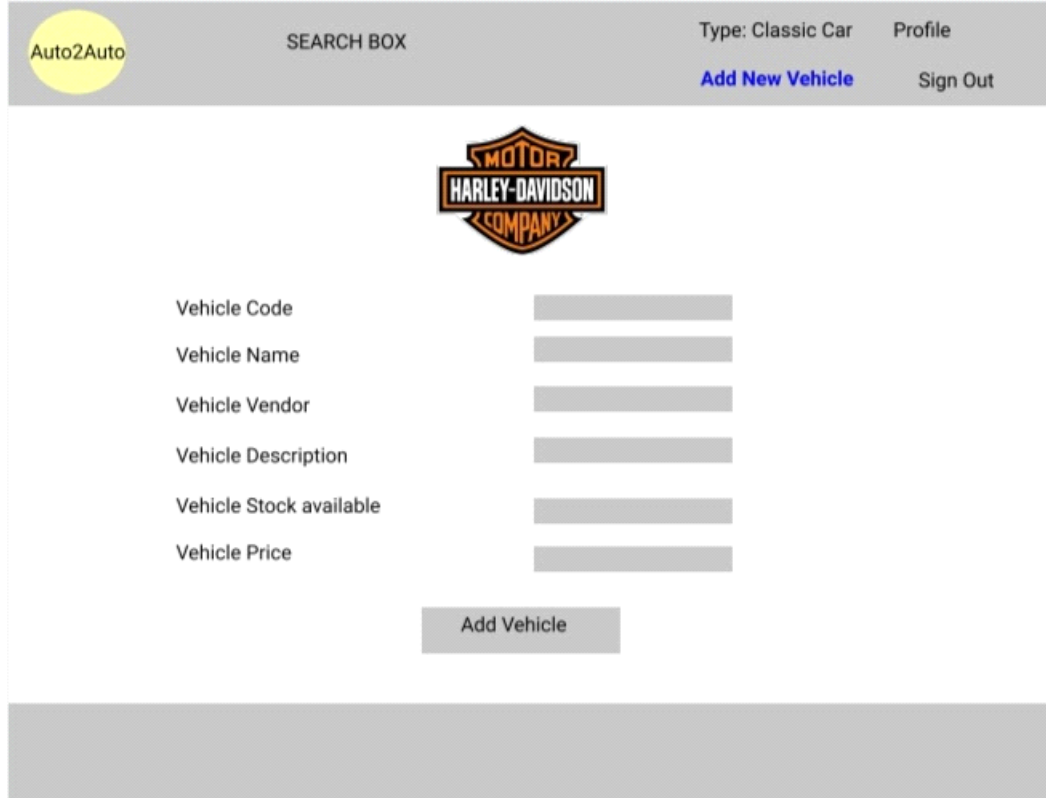

-
1. Payment page is integrated with Razorpay Payment gateway API.
 2. The details in the payment gateway tab will be automatically binded with User registered details.
 3. On successful transaction, order will be generated.

8. Home Page Manufacturer

1. If logged in as Manufacturer, user will be redirected here
2. Manufacturer Home page will be displayed according to User registered brand name accordingly.

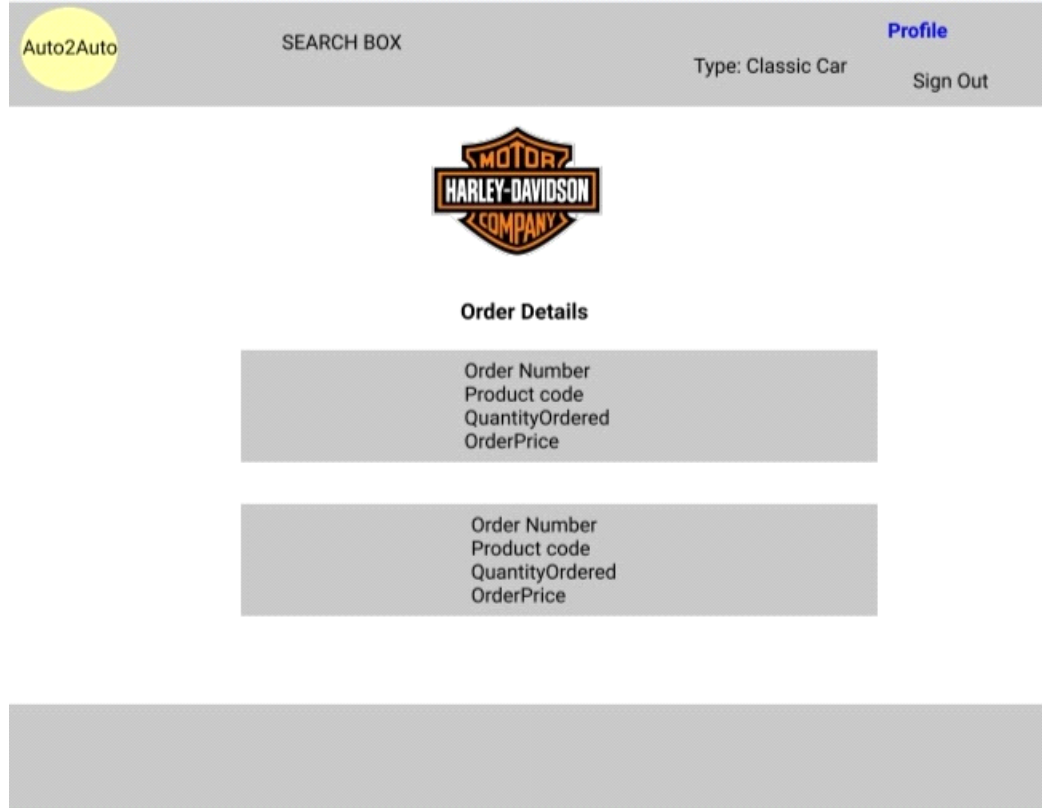

9. Manufacturer Add New Vehicle

The screenshot displays the 'Add New Vehicle' form within the Auto2Auto application. The header bar includes the 'Auto2Auto' logo, a 'SEARCH BOX', and user information: 'Type: Classic Car', 'Profile', 'Add New Vehicle' (a blue link), and 'Sign Out'. The main content area features the Harley-Davidson logo at the top. Below it, there are six input fields for vehicle details: 'Vehicle Code', 'Vehicle Name', 'Vehicle Vendor', 'Vehicle Description', 'Vehicle Stock available', and 'Vehicle Price'. Each field is represented by a text label followed by a gray rectangular input box. At the bottom of the form is a gray button labeled 'Add Vehicle'.

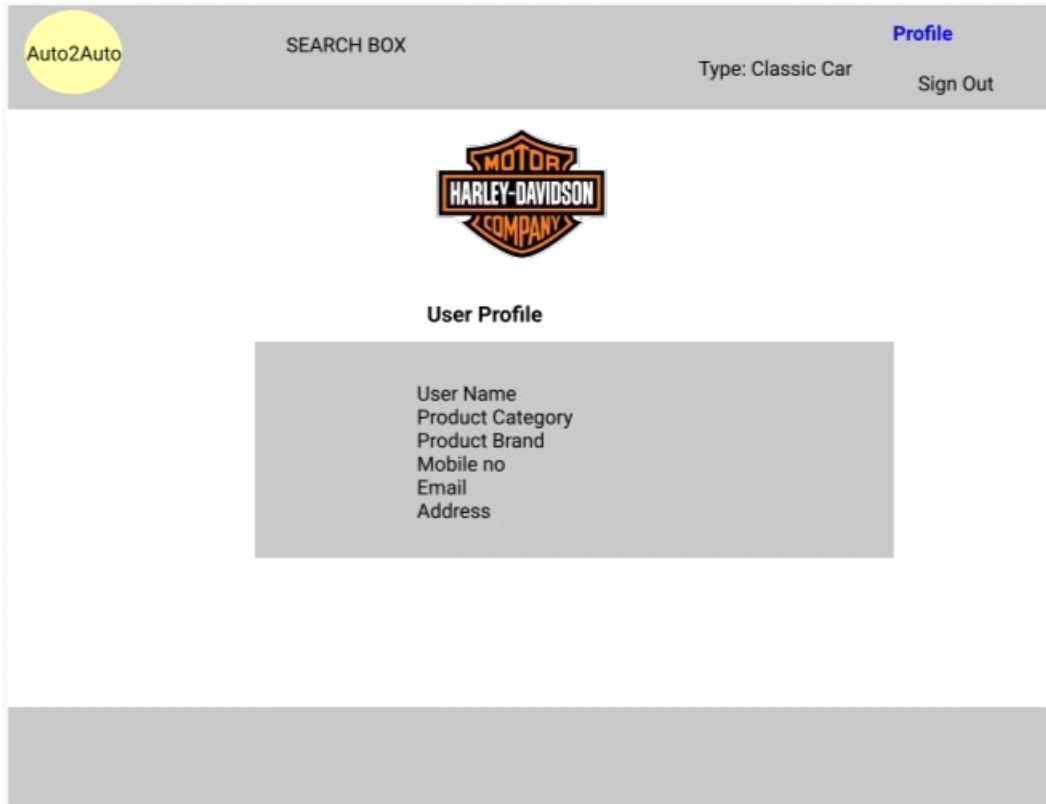

1. When user clicks on Add vehicle tab, Add Vehicle component will be activated and new vehicle can be registered here.
2. Manufacturer can add vehicle for brand registered respectively.

10. Order Details
